Delaware First Health: Drug Formulary List

This Drug Formulary List is searchable. Here is how to search for a drug:

1. Press Control F to open the search tool
2. Type the drug name into the text box
3. Press Enter

Delaware First Health Plan Pharmacy Program

Delaware First Health Plan, Inc. (Delaware First Health) is committed to providing appropriate, high quality, and cost-effective drug therapy to all Delaware First Health members. Delaware First Health works with providers and pharmacists to ensure that medications used to treat a variety of conditions and diseases are covered according to Centers for Medicare and Medicaid Services (CMS) designation of an outpatient covered drug. Delaware First Health covers prescription medications and certain over the counter (OTC) medications when ordered by a physician/clinician. Some medications require prior authorization (PA) or have limitations on age, dosage, and maximum quantities.

This section provides an overview of the Delaware First Health pharmacy program. For more detailed information, please visit our website at [Delawarefirsthealth.com](https://delawarefirsthealth.com) or call Pharmacy Services to talk to someone about the list of drugs Delaware First Health covers. The Pharmacy Services phone number is 1-833-236-1887 (TTY 711).

Preferred Drug List (PDL)

Delaware First Health uses the Preferred Drug List (PDL) as developed by the Delaware Medicaid Program. The comprehensive drug formulary list contains additional drugs that are not listed on the Delaware Medicaid Program PDL. For more detailed information, please visit their website at <https://medicaid.dhss.delaware.gov/provider/Home/PharmacyCornerLanding/tabid/2096/Default.aspx>

Prior Authorization (PA) Process

Delaware First Health works with Centene Pharmacy Services to process all pharmacy claims for prescribed drugs. Some drugs on the Delaware First Health Drug List (DL) require a PA as well as any brand name drugs not listed on the PDL. Centene Pharmacy Services is responsible for administering this process.

Delaware First Health will cover the medication if it is determined that:

1. There is a medical reason you need the specific medication.
2. Depending on the medication, other medications on the PDL have not worked or cannot be tried

Follow these guidelines for efficient processing of your authorization requests:

1. Complete the Delaware First Health Prior Authorization Request Form for Prescription Drugs which can be found at Delawarefirsthealth.com
2. Fax to Centene Pharmacy Services at 1-844-233-6130.
3. Prior Authorization decisions will be completed within 24 hours of receipt.
4. Once approved, Centene Pharmacy Services notifies the prescriber
5. If the clinical information provided does not explain the medical necessity for the requested PA medication, the request will be denied, and the prescriber and the member will be notified.
6. A pharmacy can provide up to a 72-hour supply of a medication by calling Pharmacy Services at 1-833-236-1887

Transition Period

Delaware First Health members new to the plan will be able to receive their prescription drugs with no new prior authorization (PA) requirements for first 60 days for regular non-Behavioral Health Medications and 90 days for Behavioral Health Medications. Specialty medications and non-formulary diabetic meters are exceptions to the transition period allowance and will require coverage determination. This transition period will allow you and your doctor time to consider other medications that do not require PA and to learn the steps to getting a PA. Delaware First Health's PDL and PA List identify the drugs that will require a PA. If you are not sure when you will need to have your medications prior authorized or have other questions about continuing to get your medications, Pharmacy Services at 1-833-236-1887 (TTY 711).

72-Hour Supply Policy

State and federal law require that a pharmacy dispense a 72-hour (3-day) supply of medication to any patient awaiting a PA determination. The purpose is to avoid interruption of current therapy or delay in the initiation of therapy. All participating pharmacies are authorized to provide a 72-hour supply of medication and will be reimbursed for the ingredient cost and dispensing fee of the 72-hour supply of medication, whether the PA request is ultimately approved or denied. The pharmacy must call the Pharmacy Services at 1-833-236-1887 (TTY 711) for a prescription override to submit the 72-hour medication supply for payment.

Dispensing Limits, Quantity Limits, and Age Limits

You may receive up to a maximum 34-day supply for each new or refill prescription. A total of 90 percent (90%) of the days supplied must have elapsed before the prescription for a medication can be refilled. For example, with a 34 day supply you must have taken 31 days of the medication before you can get the next refill. Prescriptions that exceed the quantity limit (QL) allowed or age limits (AL) require PA. Delaware First Health may limit how much of a medication you can get at one time. If the physician/clinician feels you have a medical reason for getting a larger amount, he or she can ask for PA. If Delaware First Health does not grant PA, we will notify you and your physician/clinician and provide information regarding the appeal process. Some medications on

the Delaware First Health Drug List may have Age Limits. These are set for certain drugs based on Food and Drug Administration (FDA) approved labeling and for safety concerns and quality standards of care. The Age Limit aligns with current FDA alerts for the appropriate use of pharmaceuticals.

Medical Necessity Requests

If you require a medication that does not appear on the Preferred Drug List (PDL), you or your physician/clinician can make a medical necessity request for the medication. It is anticipated that such exceptions will be rare and that Drug List medications will be appropriate to treat the vast majority of medical conditions. Delaware First Health requires:

Documentation of failure of at least two PDL agents within the same therapeutic class (provided two agents exist in the therapeutic category with comparable labeled indications) for the same diagnosis (e.g., migraine, neuropathic pain, etc.); or

Documented intolerance or contraindication to at least two PDL agents within the same therapeutic class (provided two agents exist in the therapeutic category with comparable labeled indications); or

Documented clinical history or presentation where the patient is not a candidate for any of the PDL agents for the indication.

Appropriate Use and Safety Edits

Your health and safety are a priority for Delaware First Health. One of the ways we address your safety is through Point-of-Sale (POS) edits at the time a prescription is processed at the pharmacy. These edits are based on FDA recommendations and promote safe and effective medication utilization.

Medicare Eligible Members

Members that are also eligible for Medicare must bill the pharmacy claim to Medicare first. Delaware First Health will not cover medications covered by Medicare. If the drug is part of the Medicare benefit but Medicare denies coverage, Delaware First Health will not cover the drug. Delaware First Health will cover medications not covered by Medicare if they are covered by Medicaid.

DUR (Drug Utilization Review) Programs

Delaware First Health will monitor ongoing prescribing of medications for clinical appropriateness. Delaware First Health reviews prescribing retrospectively to review for both safety and efficacy. Delaware First Health will work with Centene Pharmacy Services to review for such things as disease management, fraud and abuse, and prescriber profiling. Prescriber or member outreach may occur based on prescribing/dispensing patterns.

Delaware First Health will continue to monitor for issues going forward and take action as needed.

Mandatory Generic Substitution

When generic drugs are available, the brand name drug will not be covered without Delaware First Health PA. Generic drugs have the same active ingredient and work the same as brand name drugs. If you or your physician/clinician feels a brand name drug is medically necessary, the physician/clinician can ask for PA.

We will cover the brand name drug according to our clinical guidelines if there is a medical reason you need the particular brand name drug. If Delaware First Health does not grant PA we will notify you and your physician/clinician and provide information regarding the appeal process. Certain brand name drugs that have generics available are preferred (covered) on the Medicaid PDL and will be covered by Delaware First Health as determined by Delaware Medicaid.

Over-The-Counter Medications

The pharmacy program covers a selection of OTC medications. All covered OTC medications appear in the Drug List. All OTC medications must be written on a valid prescription by a licensed physician/clinician in order to be reimbursed.

Drug Efficacy Study and Implementation Drugs

Drug Efficacy Study and Implementation (DESI) drugs are said to be less effective by the Food and Drug Administration. DESI products are not covered by Delaware First Health Plan.

Filling a Prescription

You can have prescriptions filled at a Delaware First Health network pharmacy. If you decide to have a prescription filled at a network pharmacy, you can locate a pharmacy near you by contacting Pharmacy Services at 1-833-236-1887 (TTY 711).

Specialty Medication

AcaciaHealth is one of the providers of specialty medications for Delaware First Health. Most specialty drugs require a PA to be approved for payment.

Providers can request that AcaciaHealth deliver the specialty drug to the office/member. If you want AcaciaHealth to deliver the specialty drug to the office/member, contact them at 1-800-511-5144 (TTY 711).

Unapproved Use of Preferred Medication

Medication coverage under this program is limited to non-experimental indications as approved by the FDA. Other indications may also be covered if they are accepted as safe and effective using current medical and pharmaceutical reference texts and evidence-based medicine. Reimbursement decisions for specific non-approved indications will be made by Delaware First Health. Experimental drugs and investigational drugs are not eligible for coverage.

Benefit Exclusions

The following drug categories are not part of the Delaware First Health benefit and are not covered by the 72-hour supply policy:

- Fertility enhancing drugs
- Anorexia, weight loss, or weight gain drugs
- Drug Efficacy Study Implementation (DESI) and Identical, Related and Similar (IRS) – drugs that are classified as ineffective- Drugs and other agents used for cosmetic purposes or for hair growth
- Erectile dysfunction drugs prescribed to treat impotence
- Bulk powders, because there is a lack of substantial evidence of effectiveness for all labeling indications and because a compelling justification for their medical need has not been established.
- Drugs and devices classified as experimental by the FDA
- Drugs and devices not approved by the FDA

Newly Approved Products

We review new drugs for safety and effectiveness before adding them to the Delaware First Health Drug List. During this period, access to these medications will be considered through the PA review process. If Delaware First Health does not grant PA, we will notify you and your physician/clinician and provide information regarding the appeal process.

DME/Home Health Benefits

The following medical services are a part of the Delaware First Health medical benefit and are not available at the retail pharmacy:

1. Enteral products
2. Nebulizers
3. Medical Supplies – this does not include diabetic supplies as those are available at the retail pharmacy.

Contacts for Pharmacy Appeals/Grievances

Members: In the event a member disagrees with the decision regarding coverage of a medication, the member may file an appeal with Delaware First Health by calling Pharmacy Services at 1-833-236-1887 (TTY 711).

Physicians / Clinicians: In the event a clinician disagrees with the decision regarding coverage of a medication, the clinician may request an appeal by submitting additional information to Delaware First Health in writing to the Appeals Department at the following address:

Delaware First Health
Appeals Department
PO Box 31398
Tampa, FL 33631-3398
Appeals Fax: 1-888-865-6531

A decision will be rendered, and the clinician will be notified with a mailed response. An expedited appeal may be requested at any time the provider believes the adverse determination might seriously jeopardize the life or health of a member by calling Pharmacy Services at 1-833-236-1887(TTY 711). A response will be rendered the same day as receipt of complete information. In circumstances that require research, a same day response may not be possible.

Member Copay Responsibility

Price of Medication \$10.00 or less = \$0.50 copay

Price of Medication \$10.01 to \$25.00 = \$1.00 copay

Price of Medication \$25.01 to \$50.00 = \$2.00 copay

Price of Medication \$50.01 or more = \$3.00 copay

The most a member will pay for prescription copays, in a calendar month, is \$15. Once the member reaches the \$15 of accumulated prescription copays in a calendar month, copays are waived for the remainder of the calendar month in which the member reaches the \$15 maximum. The copays and the \$15 copay maximum will start over on the next calendar month.

Members and Services exempt for copays:

1. Children under the age of 21
2. Pregnant women, including the post-partum period (12 months)
3. Chronic Renal Disease Program (CRDP) members
4. Individuals eligible under the long-term care nursing facility group or the acute care hospital group
5. Family planning services and supplies
6. Hospice services
7. Naloxone opioid overdose rescue medications
8. Medication-Assisted Treatment (MAT) used for Opioid Use Disorder
9. Tobacco cessation products
